## **PSYCHOLOGICAL AND LEGAL ORIENTATIONS OF CONVICTS**

The article is devoted to the study of the peculiarities of the psychology of convicts, the mechanisms of social adaptation manifested in a certain complex of mental states, since long stay in prison conditions causes irreversible changes in the human psyche. In the article it is shown that the problem of psychological adaptation of convicts to conditions in places of deprivation of liberty has two aspects: first, a person should not adapt to the conditions of punishment related to life constraints, immoral interpersonal relations; secondly, adaptation to any conditions is dictated by the need Survival, ability to cause irreversible processes of personality degradation. As a result, we come to the conclusion that attentive attitude to the inner world of the prisoner, to the experiences that have arisen under the influence of the fact of deprivation of liberty, allows us to work out psychologically grounded measures to eliminate the negative and create positive mental states, which will make the process of correction the most effective.

***Key words:*** criminological characteristics, convicts, mental state, behavior, informal norms.

## **TYPOLOGY OF THE VALUE-SEMANTIC SPHERE OF THE COMBATANTS**

The article presents the results of the empirical study of the value-semantic sphere of servicemen of the National Guard of Ukraine who served in the combat area and has various signs of acute stress disorder, depression, and post-traumatic stress disorder. According to the results of the cluster analysis were identified five types of values of the combatants of the Southern operational-territorial unit of the NGU: "Passionary"; "Aspiring not to leave the comfort zone"; "Romantic"; "Formal"; "Self-

restraint (routine)."The combatants of the Western operational-territorial unit although have five types of values, but they have a different meaning: "The wandering philosopher"; "Aspiring not to leave the comfort zone"; "Aspiring to individual happiness"; "Companion"; "Migrant worker". The most common type of value sphere, which coincided in both groups of combatants of the NGU, is "Aspiring not to leave the comfort zone". This type in contrast to similar type of values among the combatants of Southern OTU, has a more pronounced individualism in representatives of Western OTU, which concerning a common goal of life and the ways to achieve it.

***Key words:*** combatant, Ukraine National Guard, value sphere, typology.
